About Us

QualX Corporation (QualX) is a Service-Disabled Veteran-Owned Small Business providing information management, enterprise IT, intelligence program, program management, and business and management support services to the federal government. We are a full-service, solution-oriented company supporting global and nation-wide requirements with a track record of delivering superior services and results. QualX manages a workforce of 250 professionals with ninety-five percent possessing security clearances. We support Government contracts with a value of more than \$100 million.

QualX's entire management team has worked together for more than a decade. We are the prime contractor on 85% of our work and manage subcontractors on multiple contracts. We have managed sensitive, critical programs requiring OCONUS deployments. Our fiscal discipline coupled with our core values has empowered QualX to be 100% financially independent. In short, we have the management team, experience, qualifications, and structure to support large, complex, and sensitive programs.

Core Competencies

- **Enterprise IT Support** - QualX provides enterprise-wide IT support including; web design and development, computer facilities management and operations, information assurance, electronic records/storage repositories management, database development, network administration, helpdesk support, information security, and system engineering and development services. We provide end-user support for our clients on virtually every commercially available (COTS) networking, hardware, and software product. Our diversified IT services portfolio allows QualX to deliver a consistent, results-oriented framework to maximize resources, eliminate systemic problems, and automate or improve workflows and procedures.
- **Information Management Support** - QualX is a trusted provider of information management support services to agencies that handle large volumes of data and have a fundamental need for confidentiality and security. We provide our clients with a peace of mind that their information management needs are being properly handled, allowing them to remain focused on their mission critical tasks. QualX approaches all information and program support services by first gaining an in-depth understanding of client processes, historical information, culture, and management approaches.
- **Intelligence Program Support** - The QualX team of professionals and subject matter experts deliver critical intelligence operations through functional intelligence experience, consulting, decision making, and risk mitigation services for our Government clients. QualX's support includes world-wide deployments supporting operations in hostile environments to ultimately ensure and improve the operational capabilities and effectiveness of our military, while ensuring the safety of our nation.
- **Program Management Support** - QualX uses proven industry best practices such as continuous process analysis and improvement, work breakdown structures, disciplined resource allocation, and established scheduling techniques to manage risks. More importantly, we help our clients achieve programmatic success by ensuring that projects are successfully completed on time and within budget, and that all programs meet or exceed client expectations.
- **Business and Management Support** - QualX specializes in providing comprehensive assistance and facilitation for executive programs including policy/strategic development and management; technical assistance and training; and conference meeting/planning. Our staff members work closely with our clients to fully understand their goals, target audiences, and the often complex or specialized concepts and subject areas that characterize their organization and apply this knowledge to develop relevant solutions.
